KhyatiGemsOfficial	21 Oct 2026, 12:22 am	29 Sept 2026, 11:01 pm	Before period end
CrystalVedaCo	1 Oct 2026, 6:00 pm	No sync recorded	No completed order sync
khyatigemsofficial	21 Oct 2026, 12:16 am	7 Oct 2026, 1:30 pm	Before period end

Active listings now by shop

Inventory quality – affected physical SKUs

Priority actions

1. **WARNING: 46 products have no image URL or media reference.** Add clear product images.
2. **WARNING: 16.1% of the current inventory snapshot is incomplete.** Review the Inventory completeness filters.
3. **WARNING: CrystalVedaCo: listing synchronization is stale.** Reconnect or synchronize listings before relying on active-listing snapshots.
4. **WARNING: KhyatiGemsOfficial: the latest completed order sync predates the reporting-period end; order metrics for this period are unavailable.** Run a successful complete order sync after the reporting period ends.
5. **WARNING: CrystalVedaCo: no completed order sync is recorded; order metrics for this period are unavailable.** Run a successful complete order sync after the reporting period ends.

1 additional configured alerts. Review ERP inventory and synchronization filters.

Definitions and data limits

Week totals use inclusive start / exclusive end in the report timezone. Orders: source orderDate; ERP sales: saleDate; invoices: invoiceDate (createdAt fallback). Percent change = (this week − last week) / last week; N/A if last week is zero or coverage is incomplete.

Inventory and active listings are current snapshots, not historical week-end stock. No invented prior-week inventory percentages. Physical SKUs count once across marketplaces. Image checks require a populated image reference; certificate counts follow Inventory > Missing Certification (in-stock with an image/media reference, both certificate identifiers null/empty).

*New publications count verified ERP eBay workPublication markers only. Etsy/import creation dates are not evidence of first publication. Failed publication attempts and comprehensive refund values are unavailable.

Marketplace values stay in original currency and may include shipping/tax; known cancelled, refunded, failed and unpaid statuses are excluded from units/value. Net sales, settlements and historical FX are unavailable. ERP invoice amounts are stored INR totals and are a separate ledger; never add them to marketplace revenue.

3 marketplace listing IDs have no shop assignment and are excluded from named-shop active listing and publication counts.
